

### Overview

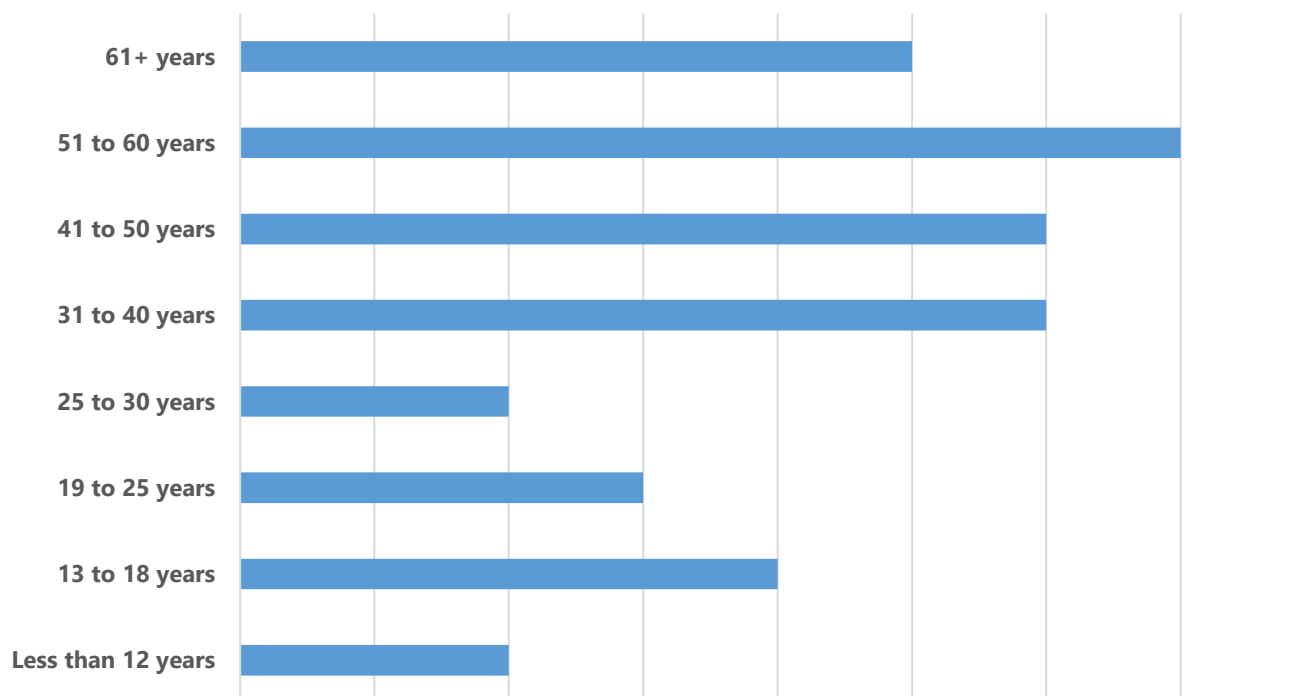

The Doutta Galla Membership Survey for 2015 received many responses and the results were presented to the Committee at the Club's Annual General Meeting.

The following are the highlights of the results:

### Age Distribution of Members

The Club has a diverse age profile with similar numbers across most age brackets.

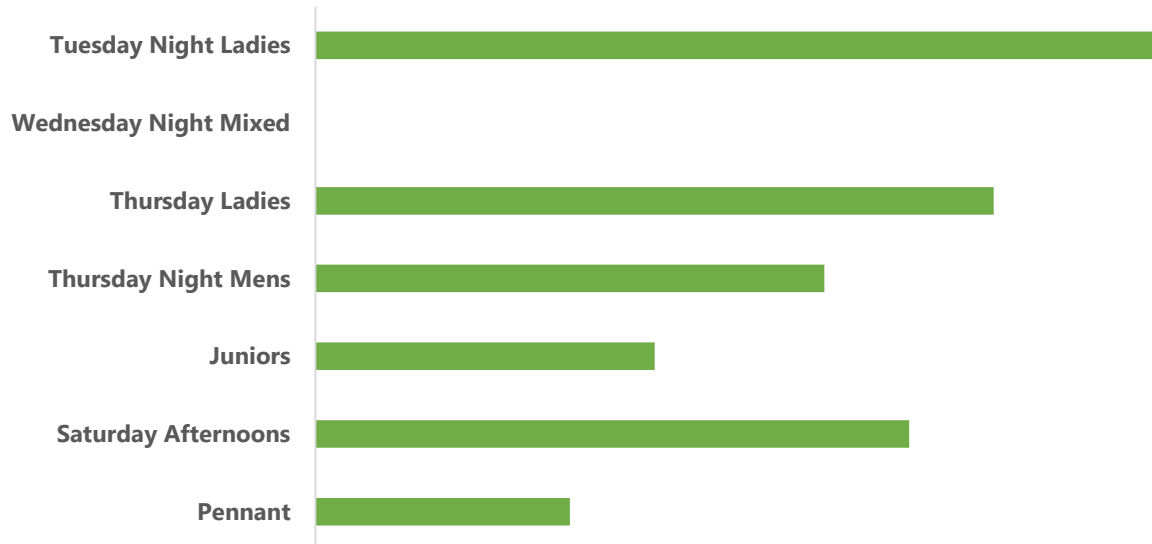

#### Age Distribution of Members

## Competition

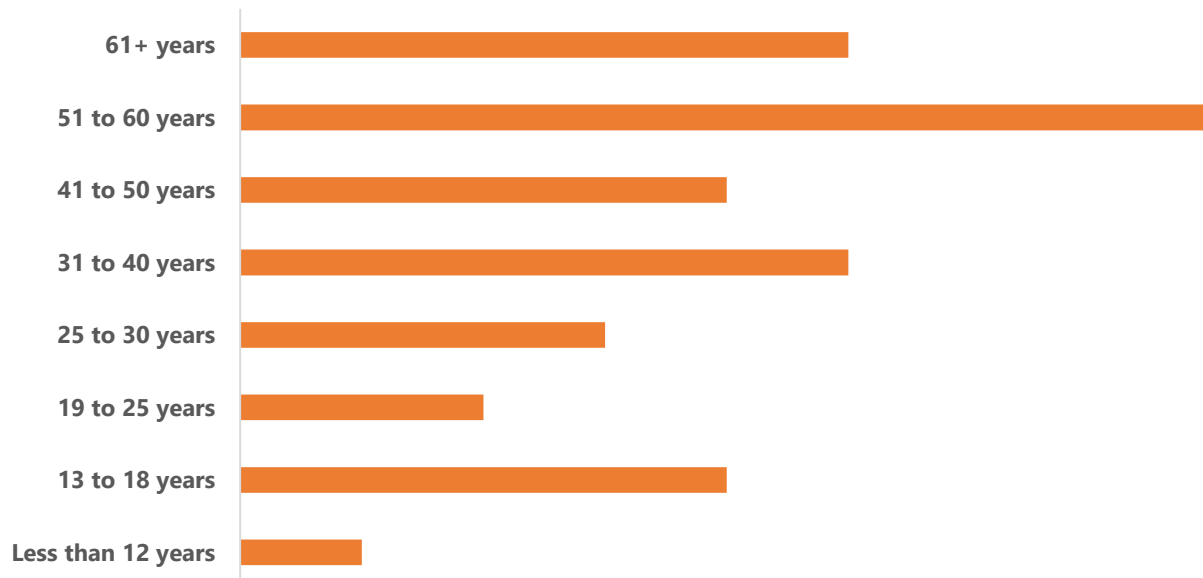

The Competitions played by Members are as expected, with the majority of respondents playing more than one Competition and Weeknights being popular.

### Competitions Played

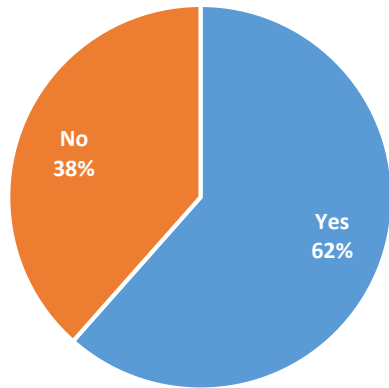

The Age distribution of competition players is similar to the age distribution of the Club. It is encouraging to see that many Juniors play competition and this is evident in the increasing number of Junior Teams for the Club.

### Age Distribution of Competition Players

# Social Tennis

## Players that Play Social Tennis

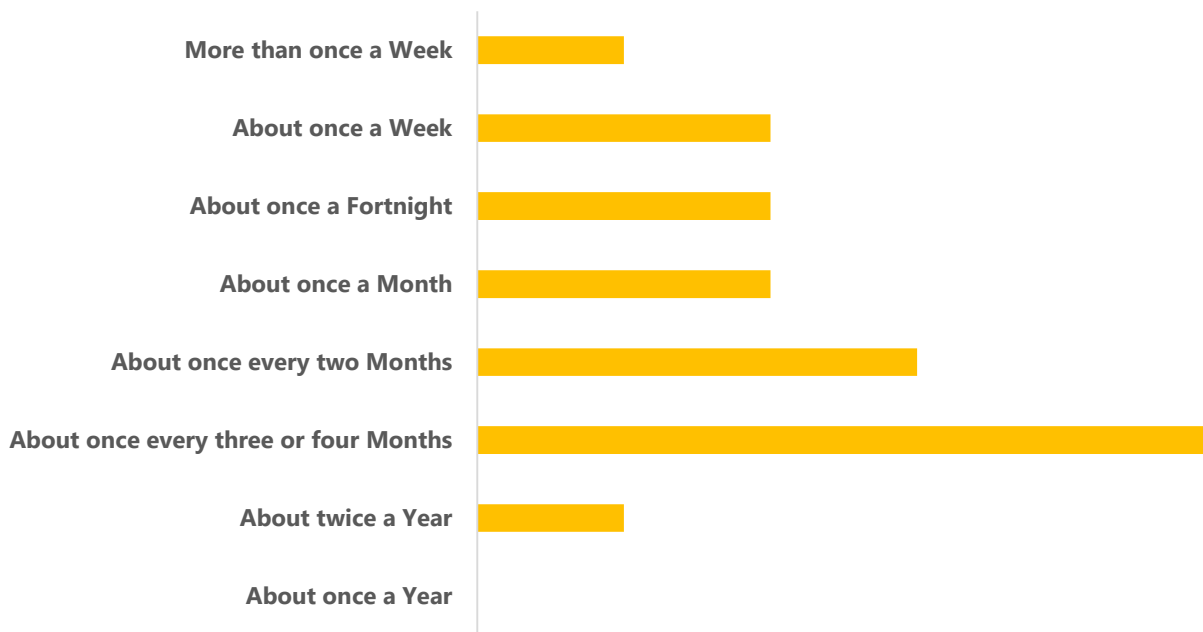

Almost one third of respondents play social tennis at the Club and this is an encouraging sign.

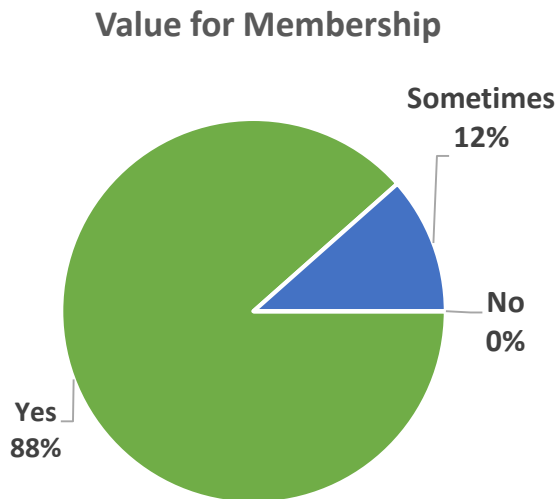

As a result of this Survey and with the increasing interest in social tennis, the Committee will organise social tennis events over the summer.

Social Tennis is played regularly at the Club, often each week or more than once a week.

## Frequency of Social Tennis

## Value for Membership

An overwhelming percentage of Members believe that they receive value for their membership.
